My daughter,

Today I ask that my children get down on their knees + pray for those souls who are on the wrong path. So much evil is taking place around the world. Many innocent souls are suffering because man does not respect life. So many are unwilling to pick up their cross + follow Jesus. I weep for those who are choosing death instead of life. Prayer is truly needed around this world because there is so much injustice, violence + bloodshed. Parents have become bad examples to their children because they are ignoring God. Parents are not living their vocation. They are behaving like children + they are giving in to Satans lies. Parents must repent of their sins. They must take hold of their family now. They must love + nurture their children + teach them Right from Wrong. Dear Parents do not go to Communion

with mortal sin on your soul. It is a grave sin + you must repent of all mortal sin before receiving communion. You will not enter heaven with mortal sin on your souls. Each of you must examine your conscience + do penance for your sins. You must cleanse your soul regularly + truly be sorry for your sins. You truly separate yourselves from God when you refuse to repent. Use your time wisely so you have the grace needed to be good parents. Turn to Jesus now + go to Confession. You cannot be good parents if you are refusing to cleanse your soul. You cannot take hold of your family if you are living in mortal sin. Please dear parents understand in order for there to be unity it must begin with you. You must be an example + live a good + holy life. Cherish your children + respect, respect life. Put on your armor + seek Gods

loving assistance. Follow the teachings of the Church & listen, listen to your most holy pope. Be shining examples of truth & be pure & obedient to the true teaching of the Church. Now please go to confession & pray together as a family. Do what God & I are asking of you. For peace cannot exist if it is not in your heart. Go forth now as loving parents & thank God for his loving guidance each new day. Amen
